suppressing by said device when operating as the discovery client of its multicast operation and conducting discovery of services of discovery responders by said device when operating as the discovery client directed to the detected discovery server; and

continuing by said device when operating as one of the discovery responders to respond to multicast discovery only of said device's own services regardless of the presence or absence of the discovery server in the network environment.” (as from claim 1 ,similar limitations in each independent claim)

This subject matter, when considering the claim as a whole, is not found in the prior art nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
